

SAFETY INFORMATION

This service manual is intended for qualified service technicians; it is not meant for the casual do-it-yourselfer. Qualified technicians have the necessary test equipment and tools, and have been trained to properly and safely repair complex products such as those covered by this manual. Improperly performed repairs can adversely affect the safety and reliability of the product and may void the warranty. If you are not qualified to perform the repair of this product properly and safely, you should not risk trying to do so and refer the repair to a qualified service technician.

1. SERVICE PRECAUTIONS

■ Changing points from base model (DDJ-REV7)

■ About "DDJ-REV7-N PANEL SERVICE ASSY"

Because the control panel portion of this product requires precision in positioning the aluminum panel and applying the double-sided tape, a positioning jig is used during production. In addition, a mechanical pressure jig is used to prevent the panels from floating, eliminating insufficient and variations pressure.

The above work cannot be performed at the service center. If the control panel is defective, be sure to replace it with the DDJ-REV7-N Panel Service Assy (DEA1148).

2. CONTRAST OF MISCELLANEOUS PARTS

NOTES: • Parts marked by "NSP" are generally unavailable because they are not in our Master Spare Parts List.
 • The "!" mark found on some component parts indicates The importance of The safety factor of The part. Therefore, when replacing, be sure to use parts of identical designation.
 • Nos. indicate the pages and Nos. in the service manual for the base model.
